## **1.0 PURPOSE:**

The purpose of this RFP is to provide information to responsible bidders (referred throughout this RFP as “Offeror(s)” and/or “Contractor(s).”) in order to solicit competitive proposals (“Proposals”), in accordance with the policies of Eastern Virginia Medical School, for a primary supplier to laboratory safety and life sciences supplies to Eastern Virginia Medical School as needed.

## **2.0 BACKGROUND**

Eastern Virginia Medical School (EVMS) was born of necessity in 1973, the result of a community-led effort to improve health care in a region then plagued with a severe shortage of physicians. Patients often had to leave the area in search of specialized care. Today, the region enjoys modern medical facilities and a full-range of medical specialties. As community leaders foresaw, EVMS was a catalyst for change, playing a key role in the region’s medical renaissance through its commitment to education, research and patient care.

### **Education**

EVMS offers a variety of graduate and doctoral degrees in the medical and health professions. Interest in all programs continues to grow. In the most recent year, EVMS received nearly 8,000 applications for 450 openings. The school now has 6,800 graduates who practice throughout Hampton Roads, across Virginia and around the globe. EVMS also provides specialty training for some 300 medical residents annually and offers Continuing Medical Education to thousands of health-care professionals practicing in the region.

### **Research**

EVMS is the largest biomedical research institution in southeastern Virginia. More than 100 EVMS faculty members are engaged in basic and clinical research focused in areas where the community has pressing needs. Innovative research has brought EVMS to the forefront of groundbreaking discoveries — from the pioneering of in vitro fertilization in America, to the recognition of new cancer detection and treatment methods and innovative therapies for individuals suffering from the debilitating side effects of diabetes. We continually strive to enhance our research enterprise in order to improve the health of the people of Hampton Roads and beyond.

### **Patient Care**

What once was one of the nation’s most medically underserved communities is today a destination for people from around the country seeking the best available care. For the 1,500 people each day who receive high-quality, patient-centered care at more than 20 convenient EVMS Medical Group locations across the region, it equates to the best possible care, delivered with a healthy dose of compassion.

It is the responsibility of the offeror to ensure delivery of the full proposal by the designated date and hour. It is strongly recommended to email the proposal well in advance to avoid the potential for delays in delivery which would render the submittal untimely.

3. **Proposal Acceptance Period:**

All Proposals must be received by the Due Date and time found on page 1 of this RFP (the "RFP Close"). Proposals received after RFP Close will not be considered. RFP modifications, unless requested by EVMS and posted to all Offerors on the EVMS RFPs website, will not be considered.

4. **Proposal Withdrawals:**

At the sole discretion of the Offeror(s), Proposals may be withdrawn at any time prior to the RFP Close. After RFP Close, letters to withdraw a Proposal will not be accepted and Proposals will remain valid until an award is made and a contract is executed or the RFP is canceled. If an award is not made within 120 days from the RFP closure date, the Proposal may be withdrawn at the written request of the Offeror.

C. **Proposal Preparation:**

1. Proposals shall be signed by an authorized representative of the Offeror (Attachment B). All information requested should be submitted to ensure consideration as a responsive bidder. Failure to submit all information requested may result in the following:
  - a. EVMS may reject the Proposal as unresponsive. Proposals, which are substantially incomplete or lack key information, may be rejected by EVMS; or,
  - b. EVMS may lower the overall evaluation score due to missing information; or,
  - c. EVMS may require prompt submission of missing information within a prescribed time period and/or the Offeror shall receive a lower overall evaluation score due to missing information lowered evaluation of the

Proposal. If after being given an opportunity to submit missing information, the Offeror does not provide all of the requested information then subsections 7.0 C (1)(a) and (b) above apply.

2. All information above must be submitted along with the RFP cover sheet (Attachment A) and an Entity Data Sheet (Attachment C). Failure to submit all information requested may result in EVMS requiring prompt submission of missing information and/or giving a lowered evaluation of the Proposal. EVMS may reject Proposals, which are substantially incomplete or lack key information.
3. Proposals should be prepared simply and economically, providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be placed on completeness and clarity of content and include or address the following:
  - a. **Organization** - Proposals should be organized in the order in which the requirements are presented in the RFP;
  - b. **Pagination** - All pages of the Proposal should be numbered;
  - c. **Paragraph Structure** - Each paragraph in the Proposal should reference the paragraph number of the corresponding section of the RFP and it is also helpful to cite the paragraph number, sub letter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and sub letter should be repeated at the top of the next page;
  - d. **Table of Contents** - The Proposal should contain a table of contents, which cross-references the RFP requirements; and,

Incomplete Proposals or Proposals which lack clarity of content and organization may risk a reduced evaluation score or elimination from consideration.

4. As used in this RFP, the terms “must”, “shall”, “should” and “may” identify the critical requirements. “Must” and “shall” identify requirements where absence will have a major negative impact on the suitability of the Project and/or mandatory requirements, which are required by law or regulation and as such they cannot be waived and are not subject to negotiation. This includes any applicable prime award funding flow-down provisions, which are mandatory and/or required as applicable. Any federal standard provisions are an example of mandatory terms and conditions that are not subject to negotiation. Items labeled as “should” or “may” are highly desirable, although their absence will not have a large impact on the Project and would be useful, but are not absolutely necessary or required.

The inability of an Offeror to satisfy a “must” or “shall” requirement does not automatically remove that Offeror from consideration; however, it may seriously affect the overall rating of the Offerors’ Proposal.

5. Each copy of the submitted Proposal contained in a single volume where practical (i.e., binder, stapled, or otherwise secured so that the pages will not easily separate or come loose). All documentation submitted with the Proposal should be contained in that single volume.
6. All expenses involved with the preparation and submission of Proposals to EVMS, or any work performed in connection therewith, shall be borne by the Offeror. No payment(s) will be made for any responses received; or, for any other effort required of or made by the Offeror(s) prior to commencement of work as defined by a fully executed contract.
7. Ownership of all data, materials, and documentation originated and prepared for EVMS pursuant to the RFP shall belong exclusively to EVMS and may be subject to public inspection in accordance with the Virginia Freedom of Information Act (FOIA) unless a confidentiality or non-disclosure agreement is signed by the parties.

This provides an opportunity for the Offeror to clarify or elaborate on the Proposal. This is a fact finding and explanation session only and does not include negotiation. If such oral presentations are deemed appropriate at the sole discretion of EVMS, EVMS will schedule the time and location for such presentations. Oral presentations, including telephone, video/internet conferencing are available at the sole discretion of EVMS and may or may not be conducted.

    - a. Invoices for items ordered, delivered and accepted shall be submitted by the contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the purchase order number and the contract number.
    - b. Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
    - c. All goods and services provided under this contract/purchase order, shall be billed by the contractor at the contract price, regardless of which department is being billed.
    - d. The date of postmark shall be deemed to be the date of payment in all cases where payment is made by mail.
    - e. **Unreasonable Charges.** Under certain emergency procurements and for most time and materials purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in

abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Medical School shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within sixty (60) days of notification.

2. To Subcontractors:

- a. A contractor awarded a contract under this solicitation is hereby obligated:
  - i. To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Medical School for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
  - ii. To notify the Medical School and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason.
- b. The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Medical School, except for amounts withheld as stated in (ii) above. The date of mailing of any payment by U.S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Medical School.

**J. Precedence of Terms:** The following General Terms and Conditions APPLICABLE LAWS AND COURTS, ANTI-DISCRIMINATION, ETHICS IN CONTRACTING IMMIGRATION REFORM AND CONTROL ACT OF 1986, DEBARMENT STATUS, ANTITRUST, MANDATORY USE OF TERMS AND CONDITIONS, CLARIFICATION OF TERMS, PAYMENT shall apply in all instance. Qualifications of Offerors:** The Medical School may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the services/furnish the goods and the offeror shall furnish to the Medical School all such information and data for this purpose as may be requested. The Medical School reserves the right to inspect offeror's physical facilities prior to award to satisfy questions regarding the offeror's capabilities. The Medical School further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy the Medical School that such offeror is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

**L. Testing and Inspection:** The Medical School reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications.

- M. Assignment of Contract:** A contract shall not be assignable by the contractor in whole or in part without the written consent of the Medical School.
- N. Changes to the Contract:** Changes can be made to the contract in any of the following ways followed by a change order/revised purchase order:
1. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
  2. The Purchasing Department may order changes within the general scope of the contract at any time by written notice to the contractor. Changes within the scope of the contract include, but are not limited to, things such as services to be performed, the method of packing or shipment, and the place of delivery or installation. The contractor shall comply with the notice upon receipt. The contractor shall be compensated for any additional costs incurred as the result of such order and shall give the Purchasing Department a credit for any savings. Said compensation shall be determined by one of the following methods:
    - a. By mutual agreement between the parties in writing; or
    - b. By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed subject to the Purchasing Department's right to audit the contractor's records and/or to determine the correct number of units independently; or
    - c. By ordering the contractor to proceed with the work and keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The contractor shall present the Purchasing Department with all vouchers and records of expenses incurred and savings realized. The Purchasing Department shall have the right to audit the records of the contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to the Purchasing Department within thirty (30) days from the date of receipt of the written order from the Purchasing Department.
- O. Disputes:** Neither the existence of a claim nor a dispute resolution process, litigation or any other provision of this contract shall excuse the contractor from promptly complying with the performance of the contract generally or with the changes ordered by the Purchasing Department.
- P. Default:** In case of failure to deliver goods or services in accordance with the contract terms and conditions, the Medical School, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional

purchase and administrative costs. This remedy shall be in addition to any other remedies which the Medical School may have.

- Q. Taxes:** Sales to the Medical School are normally exempt from State sales tax including prepared meals, catering and all serving charges, food, audio/visual services in connection with catering. State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall be free of excise or transportation taxes.
- R. Use of Brand Names:** Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict offerors to a specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the Medical School, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The Offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts, and technical detail to enable the Medical School to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. Unless the offeror clearly indicates in its proposal that the product offered is an equal product, such proposal will be considered to offer the brand name product referenced in the solicitation.
- S. Transportation and Packaging:** By submitting their proposals, all offerors certify and warrant that the price offered for FOB destination includes only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped.
