

## Addendum 2

### Email Q&A:

1. What was the previous total volume of waste picked up in 2019 broken down by location?
  - Not available
2. What was the previous total volume of waste picked up in each month in 2019 broken down by location?
  - Not available
3. How often is pick-up required at each location?
  - See revised table below
4. What is the current rate?
  - Not available
5. Trace-Chemo and Pathological Waste is segregated and packaged in different containers from Regulated Medical Waste. Can you change the Unit of Measure for these two waste streams to be consistent with the Unit of Measure for Regulated Medical Waste? The unit of measure should be Per Box.
  - Provide U/M as applicable on Price Schedule
6. What locations use the 96 gallon cart?
  - See revised list below
7. For the locations who use the 96 gallon cart, how many are required to be onsite?
  - See revised list below
8. For the locations who use the 96 gallon cart, how many were picked up each month in 2019?
  - Data not available
9. For the locations who use the 96 gallon cart, how often were these locations picked up in 2019?
  - Data not available
10. Who is the current vendor?
  - Not available
11. Is the waste at each of the Eastern VA Medical School service locations located on separate floors (listed on Attachment C) or is it collected and consolidated by your staff and placed in storage in a central place within the facility?
  - Waste will need to be collected from each respective location.
12. Can emergency/on-call service pricing be included in the bid? Emergency/On-Call service is currently at a premium and will require out of area fees.
  - Yes. Will evaluate accordingly
13. The State of Virginia, Dept of Environment, no longer issues registrations for hauling medical waste. Please confirm and revise bid document.
  - Will confirm upon receipt of proposals
14. The Department of Transportation does not require commercial drivers hauling regulated medical waste to obtain a CDL. Please confirm and revise bid document.
  - Will confirm upon receipt of proposals
15. Can you provide details on the volumes of regulated medical waste shipped from EVMS, to include quantity of containers with weights and frequency from each location?
  - Data not available
16. Can you provide the current pricing and name of the provider of this service?
  - Not available

- 17. What is the current schedule per off-site address?
  - See revised list below
- 18. What is the amount of boxes picked up each time the waste is picked up?
  - Varies per location. See revised list below
- 19. How many boxes are actively in use at each site?
  - Varies per location. See revised list below

**Current Service Locations**

EVMS Department	Location	Containers in use	Frequency (approximate)
