# Eastern Virginia Medical School/EVMS

EVMS enjoys a unique relationship with the people of southeastern Virginia, an area known as Hampton Roads. It began when community leaders created EVMS in 1973 to address the region's serious shortage of physicians. Today, the relationship is stronger than ever as EVMS continues to safeguard the community's health.

For instance, EVMS has added and enlarged educational programs to keep pace with the region's growth. Similarly, the school's clinical and research missions are tailored to address the health issues that confront the people of Hampton Roads. EVMS researchers and physician-scientists work together to rapidly translate laboratory discoveries into new treatments to help patients.

Given EVMS' deep roots in the community, it's no surprise that students, faculty and staff embrace the school's commitment to service. Community service is a part of the school's DNA and "service learning" is an integral part of the medical school curriculum, encouraging future health professionals and healthcare providers to adopt a lifelong commitment to service.

On the following pages, you will learn more about the breadth and depth of the EVMS impact in this community and beyond.

## EVMS Mission

Eastern Virginia Medical School is an academic health center dedicated to achieving excellence in medical and health professions education, research and patient care. We value creating and fostering a diverse and cohesive faculty, professional staff and student body as the surest way to achieve our mission. Adhering to the highest ethical standards, we will strive to improve the health of our community and to be recognized as a national center of intellectual and clinical strength in medicine and health professions. Our commitment to ensuring institutional effectiveness is demonstrated by the continuous assessment processes we use to improve program performance and student learning outcomes.

## Our Vision

Eastern Virginia Medical School will be recognized as the most community-oriented school of medicine and health professions in the nation.

### EVMS Board of Visitors

The Board of Visitors is the governing body of EVMS. Members are appointed by the governor, both houses of the state legislature, the cities that support the school and the EVMS Foundation.

## SCHOOL OF MEDICINE

EVMS educational programs are tailored to meet the workforce demands of the region, the state and the nation.

## Education

EVMS attracts applicants from across the country who seek out the school's collaborative environment and share the institution's commitment to community service.

In addition to the MD program, the school offers training in a growing number of health professions. EVMS also trains medical school graduates in their chosen specialty, provides sub-specialized fellowship training and sponsors ongoing Continuing Medical Education.

### Graduate Medical Education (*Residency Training*)

Once they graduate from medical school, new physicians must go through at least another three years of training in their chosen specialty. The duration of this residency varies from specialty to specialty. EVMS hosts **416** residents in **43** Residency, Fellowship and Internship programs.

Combined Internal Medicine/Geriatrics	Otolaryngology
Dermatology	Pediatrics
Pediatric Dermatology Fellowship	Child Abuse Fellowship
Emergency Medicine	Emergency Medicine Fellowship
Academic Fellowship	International Pediatric Emergency Medicine Fellowship
Global Fellowship	Simulation in Medical Education Fellowship

Minimally Invasive Gynecological Surgery Fellowship	Vascular Surgery Fellowship
Maternal-Fetal Medicine Fellowship	Urology
Reproductive Endocrinology and Infertility Fellowship	Adult & Pediatric Genitourinary Reconstructive Fellowship
Ophthalmology	

## Teaching Affiliates

EVMS does not own a hospital. Instead, the school has established working relationships with healthcare facilities across the region where student and medical residents learn in a variety of clinical settings. In addition to the major facilities listed below, EVMS also has teaching affiliations with approximately 150 private practices and 10 additional clinical facilities throughout Hampton Roads.

Beth Sholom Village [Virginia Beach]  
 Bon Secours DePaul Medical Center [Norfolk]  
 Bon Secours Maryview Medical Center [Portsmouth]  
 Chesapeake Regional Medical Center  
 Children's Hospital of The King's Daughters [Norfolk]  
 Naval Medical Center Portsmouth  
 Riverside Behavioral Health Center [Hampton]  
 Riverside Rehabilitation Institute [Newport News]  
 Sentara Careplex Hospital [Hampton]  
 Sentara Leigh Hospital [Norfolk]  
 Sentara Norfolk General Hospital  
 Sentara Obici Hospital [Suffolk]  
 Sentara Princess Anne Hospital [Virginia Beach]  
 Sentara Virginia Beach General Hospital  
 Veterans Affairs Medical Center Hampton

## Continuing Medical Education (CME)

Educational activities sponsored by Continuing Medical Education (CME) help physicians maintain competence and skills to provide the highest level of patient care in the Hampton Roads area. The EVMS CME office has received the highest level of accreditation, with commendation, from its accrediting body.

Hours of CME offered:	1,942
Number of activities:	1,003
Attendees at EVMS CME activities:	9,348

## Medical Modeling and Simulation

EVMS was among the first medical schools in the country to use “standardized” patients — trained individuals who portray patients — to teach students how to perform clinical exams and how to communicate effectively with patients. With the establishment of the Sentara Center for Simulation and Immersive Learning at EVMS, the school continues to be an innovator in developing new ways to use technology to teach common medical procedures and to provide students with a safe environment in which to practice and perfect their technique. The simulation center is accredited by the Society for Simulation in Healthcare.

The center has logged more than **80,000 hours** of simulation training with **31,754 learners** — both from EVMS and other institutions locally

The center also works offsite with **87 external clients**, including other medical schools

The center offers life-support courses, with **10,098 students** certified in basic and advanced lifesaving training

Staff includes **23 full-time** and **140 other** employees, including standardized patients and life-support instructors

## Accreditation

Below are the major agencies that accredit educational programs and activities at EVMS.

Commission on Colleges of the Southern Association  
of Colleges and Schools

Liaison Committee on Medical Education

Accreditation Council for Graduate Medical Education

Accreditation Council for Continuing Medical Education

In keeping with the institution's community-focused mission, much of the research EVMS scientists and physicians conduct is driven by the region's pressing health needs.

## Research

EVMS strives to enhance its research enterprise in order to improve the health of the people of Hampton Roads and beyond. EVMS carries out focused research in several specialty centers, including:

### Biorepository

A College of American Pathology accredited program to acquire, process and share bio-specimens for research.

### Center for Integrative Neuroscience and Inflammatory Diseases

Conducts basic and translational research in movement disorders and neurocognitive decline.

### Leroy T. Canoles Jr. Cancer Research Center

Dedicated to translational research studies that lead directly to improved care and new biomarkers.

### Center for Women and Infant Health Equity and Advocacy

Focused on reducing health disparity for mothers and their children by focusing on clinical practice quality and safety using epidemiological and effectiveness data to drive guidelines and policy.

### EVMS-Sentara Collaborative Integrated Neurodegenerative Disorders Center

Conducts multidisciplinary, patient-oriented clinical and basic research to improve the understanding and treatments of Alzheimer’s Disease, Parkinson’s Disease and other aging-related neurodegenerative disorders.

### Clinical programs with community outcomes

The Glennan Center for Geriatrics and Gerontology and the Community Health and Research division of Pediatrics conduct research on the special needs of the community.

### CONRAD

The center focuses on prevention of sexually transmitted diseases in developing countries.

### EVMS-Sentara Healthcare Analytics and Delivery Science Institute

Conducts collaborative epidemiological research to improve population health management and healthcare delivery.

### Clinical Research Center

Conducts research in menopause, infertility, contraception, pre-implantation genetic diagnosis and more.

### National Center for Collaboration in Medical Modeling and Simulation

A joint project of EVMS and public/private partners works to improve patient care through simulation-based training.

## Technology Highlights

US patents and applications: **70**

Licenses: **10**

Licensing & royalty income: **\$49.9 million**

*Figures reflect active metrics, current as of July 1, 2022*

### Strelitz Diabetes Center

Conducts a broad range of research focused on minimizing complications of diabetes and developing new treatments to prevent or reverse Type 1 diabetes.

### George L. Wright Jr. Center for Biomedical Proteomics

Provides state-of-the-art mass spectrometers and analytical tools for biomarker discovery & proteomic disease analysis.

In addition to the centers, many departments also conduct research in a myriad of areas, including:

**Complement and inflammation modulation**

**Ear, neck and head disorders**

**Emergency medical treatments**

**Health disparities**

**Infectious disease and immunology**

**Maternal-fetal medicine, general obstetrics, gynecology and urogynecology**

**Psychiatric and behavioral disorders**

**Pediatric diseases, genetics, neonatology**

**Surgical procedures**

**Urologic disorders**

### Basic, Translational & Clinical Research

Active grants and contracts: *	204
Annual funding:	\$26.5 million
NIH primary funding	\$6.8 million
NIH primary awards: *	24
NIH secondary awards: *	42

\* These numbers represent research begun in FY 2022 and existing research that continued during that time.

### Research Publications

Scholarly activity is one measure of an institution’s research output. Researchers typically submit their study results to peer-reviewed publications so that colleagues everywhere can keep pace with the latest discoveries and developments. Below are figures related to articles and publications authored by EVMS faculty.

Journal articles:	615
Books and book chapters:	8

EVMS faculty members not only train students and medical residents, they provide world-class medical care to more than 1,600 people every day.

## Patient Care

EVMS full-time physicians and EVMS-affiliated physicians and healthcare providers care for patients in locations throughout the region. Many are sought after by patients near and far in search of the best-available care and innovative treatments.

Some of the care is unique. For instance, EVMS specialists are the only ones in the region to provide care for women experiencing high-risk pregnancies.

### EVMS Medical Group

More than 150 full-time physicians and 40 physician extenders are affiliated with EVMS Medical Group, a not-for-profit physician group supporting EVMS. In addition to their duties as teachers and scientists, these physicians and surgeons care for more than 1,600 people every day at 29 clinical practice sites.

## Community

Established through a grassroots campaign, EVMS was founded by the community for the community. So it should come as no surprise that EVMS enjoys a special connection with the people of Hampton Roads.

Faculty, students and staff strive daily to fulfill the school's vision to be the nation's most community-oriented school of medicine and health professions.

In FY 2022, EVMS student volunteers provided more than **18,830** hours of community engagement, which impacted an estimated **3,075** individuals living in the region. That includes **550** events hosted, sponsored or organized by EVMS.

Among the activities during the fiscal year were educational lectures, health fairs, telehealth sessions with Street Health, HOPES Free Clinic (the first student-run free clinic in Virginia) and vaccination efforts, Health Science Academy for high-school age youth and many others.

Community-Engaged Learning initiatives such as Bystander CPR and Community Stroke Awareness taught valuable skills to community members, while other initiatives like Adaptive Gymnastics helped young athletes with neurological, physical or developmental disabilities.

Among the longest-running initiatives is the Medical

& Health Specialties Program at Norfolk's Maury High School. The program brings high school students with an interest in a career in health or medicine to the EVMS campus on a regular basis.

One of the school's newest initiatives is the EVMS Health Sciences Academy, an immersive, two-week experience that introduces participants to a range of career tracks in medicine and healthcare. The program, supported by donors, includes hands-on activities, such as opportunities for students to learn more about ultrasound technology.

**"I chose the physician assistant program at EVMS because I was drawn to the community focus. Giving back to the community is a passion of mine."**

## Financial Overview

EVMS is a state-assisted, independent, community-based medical school. Unlike most medical schools, EVMS does not own a hospital and is not part of a larger university system.

EVMS has seen steady growth in the last several years. The school continues to enjoy strong support from business, organizations and individuals who appreciate its value to the community.

“[EVMS] is a true success story. And it’s a community success besides because so many people from the community and the cities are involved. It’s a group of people coming together for a very vital task and doing some very good things.”

Economist James Koch, PhD

### Economic Impact

When noted regional economist James Koch, PhD, last reported on his evaluation of the school’s economic imprint on the region in 2017, he found that EVMS-related economic activity grew at more than twice the pace of the region in the last five years. He estimated the school’s annual impact at \$1.2 billion, a 21.4 percent increase from just five years earlier.

Annual economic impact:	\$1.2 billion
EVMS rank among private-sector employers in Hampton Roads:	12
Estimated annual impact of EVMS alumni in Hampton Roads:	\$446 million*
Value of charitable services, including uncompensated care:	\$63 million
Economic ripple effect from EVMS activities:	\$655 million
Additional jobs generated locally because of EVMS economic ripple effect:	4,900

\* includes ripple effect

EVMS activities generate an estimated ripple effect on the local economy of **\$655 million**

## Facilities

EVMS has modern facilities for education, research and patient care. The school has made significant capital investments in the last decade. Recent renovations at EVMS and elsewhere in the Eastern Virginia Medical Center have made space for two large lawns and adjoining areas to relax and enjoy the outdoors.

EVMS facilities include:

Building	Purpose	Sq. Ft.	Year Built/Renovated
Andrews Hall	Administration and clinical offices	80,000	1973/2022
Brickell Library	Medical sciences library, open to the public	47,000	2000/2011
Jones Institute	Women's Health	69,000	1992/2011
Hofheimer Hall	Clinical and academic offices	109,000	1985/2019
Lester Hall	Canoles Cancer Research Center, School of Health Professions, Sentara Center for Simulation & Immersive Learning	103,000	2011
Lewis Hall	Education, research	186,000	1978/2011
Waitzer Hall	Education and academic administrative support	138,000	2020
Williams Hall	Strelitz Diabetes Center, Clinical Research Unit of EVMS Pediatrics, Research support	50,000	1967/2011

EVMS shares a campus with two hospitals - Sentara Norfolk General Hospital and Children's Hospital of the King's Daughters - and the Norfolk Department of Public Health.
