LETTER FROM THE CHAIR

I am delighted to have this opportunity to thank our staff and trainees for the excitement and enthusiasm that they infuse into our Department! Also, this is a wonderful forum to expose interested applicants for our graduate training programs in Psychiatry and Psychology to the breadth of activities in our Department; essentially, all of the major areas of specialization within Psychiatry and Psychology are well represented by members of the faculty. Importantly, as a Department, we must position ourselves to address the urgent need for the efficient delivery of effective psychiatric services within our region. Our models of practice must adapt to the seemingly unlimited demand and the fiscal realities of poor reimbursement. Moreover, we must continue to do more than simply “practice,” we must innovate and teach in real-time as our services are delivered. As an academic Department of Psychiatry embedded in the only Academic Health Center for Coastal Virginia, we have a moral imperative to develop newer and more effective ways of delivering care to an ever-growing population of insured and informed “consumers,” who are seeking and are entitled to high-quality psychiatric services. Moreover, as a medical school, we must be prepared to do the things that providers in the community are unable to do. Thus, we will continue to brainstorm about how to best address the needs of special and underserved populations, such as persons with autism spectrum disorders and their families. This can only be accomplished in partnerships. Thus, I am proud of our continuing efforts to build strong academic affiliations with the region’s Community Services Boards, which are Virginia’s equivalents of the Community Mental Health Centers, our patient advocate groups, such as NAMI and others, and local professional societies. Over the past few years, we have assumed increased responsibilities for all of the psychiatric care in Sentara Norfolk General Hospital, which is a large and complex tertiary-care medical center and a major academic teaching hospital affiliate of EVMS; this has been a “win-win” for both of us, providing outstanding high-quality care for patients and an enriched teaching and training opportunity for our medical students and residents. Of course, we are very proud and grateful for our longstanding affiliation with the Hampton Veterans Affairs Medical Center; our faculty and trainees can enjoy no mission or activity more noble than participating in the care of our true American Heroes, men and women who have willingly put themselves in Harm’s Way to assure our fundamental freedoms! I am also very proud of the growth of our Department’s Autism Spectrum Disorders Program, which serves as a paradigm for the type of specialized initiatives we must be willing to undertake. In addition to our traditional areas of strength (e.g., psychodynamic psychiatry, psychopharmacology, Consultation Psychiatry, Behavioral Medicine, Neuropsychology, cognitive behavior therapy, child and adolescent psychiatry, forensic psychology, and the assessment of preschool and nonverbal children with neurodevelopmental disorders, among other areas), we recognize that psychiatry is rapidly evolving into a translational clinical discipline of Neuroscience. Thus, we continually prepare ourselves to translate developments in molecular genetics, functional imaging, and cognitive neuroscience into enhanced diagnostic strategies and therapeutic interventions. I am confident that we will maintain a continuous readiness to meet the exciting challenges of the upcoming decades; we will not simply meet these challenges, but we will set the standards for practice, teaching and research that will be emulated by other academic Departments of Psychiatry throughout the country. Because we have a sacred mission, we will do no less!

Thank you,
Stephen I. Deutsch, M.D., Ph.D.
Anne Armistead Robinson Endowed Chair in Psychiatry
Professor and Chairman
Psychiatry and Behavioral Sciences

**RECENT RECOGNITION AND AWARDS**

**Dr. Barbara Cubic** will be awarded the upcoming APA Division 38 (Health Psychology) lifetime achievement award. The Division’s 2014 Outstanding Contributions to Clinical Health Psychology Award will be presented August 9 in conjunction with the American Psychological Association’s convention in Washington, DC.

**Dr. Justin Petri** has been awarded the prestigious Nancy CA Roeske Teaching Award. The Nancy C. A., MD, Certificate of Recognition for Excellence in Medical Student Education Award is awarded annually to American Psychiatric Association members and fellows who have made significant and sustained contributions to the advancement of medical student education.

**Dr. Barbara Cubic** was appointed as the CFAS (Council of Faculty and Academic Societies) representative for the APAHC to AAMC. This appointment is for one year with the option of renewal.

**Dr. Greg Briscoe** was appointed as an External Reviewer for the AAMC Medical Education Planning Committee for the 2014 AAMC Meeting.

**Dr. Lisa Fore-Arcand** has accepted an invitation to participate as a reviewer for the AAMC Medical Education Meeting submissions for presentations for the annual meeting.

Jessica Burket, MS was a winner at the 2013 EVMS Research Day event, with an award of a $1000 travel award.

**Dr. Lisa Fore-Arcand** has been selected as the Co-Director of the Education Scholars Program for ADMSEP (Association of Directors of Medical Student Education in Psychiatry), along with Susan Lehmann, MD of Johns Hopkins University School of Medicine.

**Dr. Lisa Fore-Arcand** is serving as the Co-Chair of the Scientific Poster Committee along with Dave Carlson, MD of the University of North Dakota School of Medicine.

Congratulations to **Dr. William Lemley** for developing and launching a smart phone app called “Psychiatry on Demand.” This app is a comprehensive collection of industry-standard screening measures and rating scales for various psychiatric disorders. The app is available for $0.99 at the App Store.

The abstract for [Decker, KP, Peglow, S., & Samples, CR (2014, April). Long-term outcome after residential substance use treatment. American Society of Addiction Medicine, Orlando, Florida.] received the ASAM Medical Scientific Program Planning Committee Award, as reviewed by the 2014 Med-Sci Conference Program Committee.
UPCOMING EVENTS

Wednesday, April 30, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Cherie Marvel, PhD (Assistant Professor of Neurology & Psychiatry, Johns Hopkins University School of Medicine)

ASD Quarterly Series: The Role of Cerebellum in Cognition

Wednesday, May 7, 2014
6th ANNUAL RESEARCH DAY
1:00 - 3:00 PM   Hofheimer Hall Auditorium
Oral Presentations

Wednesday, May 14, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Clinical Psychology Interns presentation

Wednesday, May 21, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium

Wednesday, May 28, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium

Wednesday, June 11, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Paul Sayegh, MD (Assistant Professor, EVMS Psychiatry & Behavioral Sciences)

Wednesday, June 18, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium

Wednesday, June 25, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium

Tuesday, June 24, 2014
Psychiatry Grand Rounds: 8:00 AM - 9:00 AM   Hofheimer Hall Auditorium
Noah Matlsky, MD (Psychiatry Resident, EVMS Psychiatry & Behavioral Sciences)

Wednesday, July 9, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Sharmini Santher, MD (Assistant Professor, EVMS Psychiatry & Behavioral Sciences)
Topic: Pediatrics-Medicines

Wednesday, July 23, 2014
Psychiatry Grand Rounds: 11:00 PM - 12:00 PM   Hofheimer Hall Auditorium
William Duane, PhD (Churchland Psychological Associates)
Topic: Suicide Risk and Management

Wednesday, August 13, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Richard M. Zweifler, MD (Sentara Neurology Specialists)
Topic: Vascular Disease / MS and Mental Health

Wednesday, September 10, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Steven Morrison, PhD (Old Dominion University)
ASD Quarterly Series: Gait and Balance Problems in ASD

Wednesday, October 8, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Dr. Frank Kirchner
Topic: Neurobiological Evidence of Yoga

Wednesday, December 10, 2014
Psychiatry Grand Rounds: 12:00 PM - 1:00 PM   Hofheimer Hall Auditorium
Dr. Wachtel
ASD Quarterly Series: ECT and Autism

For more information regarding Grand Rounds, please contact Julie Irving at 446-7189 or IrvingJM@evms.edu
ANNOUNCEMENTS

We would like to congratulate the Virginia Consortium (VCPCP) program’s fourth-year students who all matched with a respective APA-accredited internship, with five of the six students matching their first- or second-rated internship and no student matching below their fourth-rated selection. This is a great outcome in an arena where there is an imbalance of fewer training slots than qualified applicants. For national perspective, in 2013, 19% of all students seeking similar internships did not match with any internship site, with an additional 18% not matching an APA-accredited internship site. Many thanks to those who contributed to these students’ training and preparation. (See the full list of students on page 10)

Dr. Kathrin Hartmann completed a three-month sabbatical in Valparaiso, Chile. Welcome back, Dr. Hartmann!

Drs. J. D. Ball and Maria Urbano (in collaboration with J. Zeman, Burk, & Dickter) received research funding for the study entitled “Enhancing attention in young adults on the Autism Spectrum: Development of an Online Intervention”, with funding from the EVMS-WM Research Funding from the Commonwealth of Virginia.

Dr. J. D. Ball appeared on the Hampton Roads Show (WAVY TV-10) on April 3, 2013 to thank the Hampton Roads Community Foundation and EVMS Psychiatry and Behavioral Sciences for matching grants to study “Effects of Delaying School Start Time on Adolescent Sleep, Neurological Functioning, and Driving Skills” as well as to promote a presentation at Chesapeake Bay Academy on April 16, 2014 entitled “Sleep, School Functioning, and Sleep/ADHD Conundrum”.

Dr. Barbara Cubic co-presented a webinar in December, 2013:

Dr. Sarah Deaver participated in a panel: “Projective drawings evolution: Projective drawing assessments in Art Therapy” at the Society for Personality Assessment in Alexandria, VA.

Dr. Sarah Deaver was an invited guest lecturer for the George Washington University Art Therapy Program, presenting on descriptive and correlational cross-cultural art therapy assessment research.

We would like to congratulate Lakeisha Joyner and Shavonia Faulks for their respective weddings, both occurring in April 2014. We wish both couples a lifetime of love and joy in their respective relationships.
RECENT EVENTS

- April 9 - Grand Rounds presentation with Theodore Remley, Jr, JD, PhD entitled “Legal and Ethical Issues for Mental Health Professionals”
- April 2 - Autism Awareness event hosted by the Autism Spectrum Disorders Program as a resource for families and people with autism
- March 25 - Grand Rounds presentation with Syeda Rabia Younous, MD and David Erekson, MA entitled “Opiate Maintenance Therapy and Pain Management Techniques for Patients with Sickle Cell during non-Crisis Periods”
- March 12 - ASD Quarterly Series Grand Rounds presentation with Cheryl Shiflett, PhD, LPC, ATR-BC and Leila Saadeh, MA entitled “Using a Different Set of Keys: Unlocking Autism Spectrum Disorder with Art Therapy”
- February 12 - Grand Rounds presentation with Skye Ochsner Margolis, PhD entitled “Sleep and Pain: Psychological Management of Insomnia in the Context of Chronic Pain”
- February 7 - Conference entitled “Insights into Autism: Exploring the Impact of DSM5: Clinical and Research Relevance”
- January 16 - Grand Rounds presentation with David Goldman, MD entitled “Our Genes, Our Choices: How Genetic Variants that Alter the Processes of Addiction Mediate the Inheritance of Alcoholism”
- January 8 - Grand Rounds presentation with Stephen Deutsch, MD, PhD entitled “Pathophysiology and Treatment of PTSD”
- December 18 - ASD Quarterly Series Grand Rounds presentation with Jessica Burket, MS entitled “Targeting the NMDA Receptor to Improve Sociability in Mouse Models of Autism Spectrum Disorders: Is mTOR Signaling Activity Involved in this Prosocial Effect?”
- November 26 - Grand Rounds presentation with Sukhdeep Rahi, MD entitled “Catatonia Management”
- November 13 - Grand Rounds presentation with David Brock, MD entitled “Changing the Landscape of Depression Treatment: Transcranial Magnetic Stimulation in the Treatment of Pharmacoresistant Major Depression”
- November 10 - The EVMS Autism Spectrum Disorders Program participated in the Scavenger Hunt for Autism event hosted by Families of Autistic Children in Tidewater (FACT), which raised over $17,000.

EVMS Psychiatry employees Dr. Stephen Deutsch, Dr. Sharmini Santher, Andrew Benson, Amy Herndon, and Takeshia Williams, among other EVMS volunteers, took part in the Scavenger Hunt for Autism held November 10 at the Virginia Beach oceanfront.
AUTISM SPECTRUM DISORDERS PROGRAM

The ASD Program created a team (the “EVMS Psych-ede-lies”) to raise funds for Families of Autistic Children of Tidewater’s annual Scavenger Hunt for Autism. Dr. Santher, Amy Herndon, and Clinical Psychology Doctoral Student Takeshia Williams participated in the event on November 10th. The “EVMS Psych-ede-lies” raised $1,370 and the event overall raised about $18,000 to support our department’s autism research and Camp Gonnawannagoagin’. Thank you to all who graciously donated!

Dr. Urbano attended the 52nd Annual American College of Neuropsychopharmacology (ACNP) Meeting on December 8-12th in Hollywood, FL and presented a poster. The poster described the results of the ASD Program’s D-Cycloserine study, which provided proof of concept/proof of principle that targeting the NMDA receptor in the context of a comprehensive, individualized interdisciplinary treatment plan holds promise for addressing the core social deficit of ASDs.

The ASD Program, along with CHKD, presented the annual “Insights into Autism Conference” on February 7th. The conference offered information on the impact of the DSM 5 on ASD as well as the social and ethical impact of new genetic screening. The ASD Program also held two ASD Quarterly Series Grand Rounds, with Dr. Cheryl Shiflett, Leila Saadeh, and Jessica Burket presenting.

The ASD Program is currently engaged in joint research with The College of William and Mary’s Department of Psychology in a study aimed at enhancing selective attention in young adults with ASD by way of an online intervention. In addition, the ASD Program has current collaborations with Old Dominion University’s Department of Communication Disorders and Special Education, the Department of Electrical and Computer Engineering, and the School of Physical Therapy. They are also currently recruiting for their Galantamine study, a drug study trial aimed at addressing emotional regulation in older adolescents and young adults with ASD.

A community event, presented by our own EVMS ASD Program, was held on April 2nd in honor of World Autism Awareness Day. Drs. Urbano, Santher, and Deutsch addressed the topics of the transition into adulthood, medication and stress, and the ASD Program’s current research, respectively. All ASD faculty members, as well as Dr. Kevin Pelphrey from the Yale Child Study Center, held an open panel discussion following the presentations. The event was well attended with over 100 individuals from the community present, as well as many members of community organizations who were available to offer resources.

Upcoming Events:

Dr. Urbano, Dr. Hartmann, Dr. Santher, and Clinical Psychology Doctoral Student Takeshia Williams will present at the Virginia Psychological Association Convention on April 25th to discuss family and caregiver experiences regarding the identification and treatment of autism spectrum disorders. Much of the information will be drawn from Ms. Williams’ current study on Caregiver Stress (Perceived Stress Versus Physiological Stress Levels in Caregivers of Children with Autism Spectrum Disorder) as well as Dr. Hartmann’s study that was recently conducted in Chile, addressing the perceptions of caregivers of children with ASD in Latino families.

Dr. Urbano will meet with the Virginia Beach City Public School system’s nursing staff on April 30th to discuss the DSM-V changes to the ASD diagnosis, treatment, signs and symptoms, and resources.

ASD Quarterly Series Grand Rounds:
Cherie Marvel, Ph.D., Johns Hopkins University School of Medicine: April 30th
Steven Morrison, Ph.D., Old Dominion University: September 10th
Lee Wachtel, M.D., Kennedy Krieger Institute: December 10th
STUDENT RESEARCH CORNER: RECENT/UPCOMING GRADUATES

EVMS
PSYCHIATRY AND
BEHAVIORAL SCIENCES
Dr. Maria Urbano, MD, EVMS Psychiatry

Cindy Gwinn, BSW, Department of Behavioral Health & Developmental Services, Richmond, VA

Left to Right: Peter Dozier, MD, CHKD; John Rossi, VMD, M, Drexel University; Sarah Spence, MD, PhD, Boston Children's Hospital; Carol M. Schall, PhD, VCU Autism Center for Excellence; Maria Urbano, MD, EVMS Psychiatry & Behavioral Sciences
EVMS Faculty and Residents gathered at the Psychiatry Society of Virginia for the spring meeting in Richmond, Virginia, March 21-22, 2014. Several residents and faculty members were in attendance and Chief Resident Stephanie Peglow, D.O. and faculty member Lisa Fore Arcand, Ed.D. presented “Education and Psychiatry’s Future” and participated in a panel discussion.

Past, Present, and Future Chief Residents of EVMS's Department of Psychiatry enjoyed an impromptu reunion. EVMS Residency Alumnus, Brian Wood, D.O. is currently the President of the Psychiatry Society of Virginia (PSV).
NEW PERSONNEL

We would like to recognize the following new employee:

Shannon Cray (Psychometrician) joined our department in March 2014. Ms. Cray received her MA degree from Norfolk State University and will graduate from the Virginia Consortium Program in Clinical Psychology in May.
